

What's New in Bridgit™ Conferencing Software 3.3

Applies to: Bridgit™ conferencing software 3.3

Overview

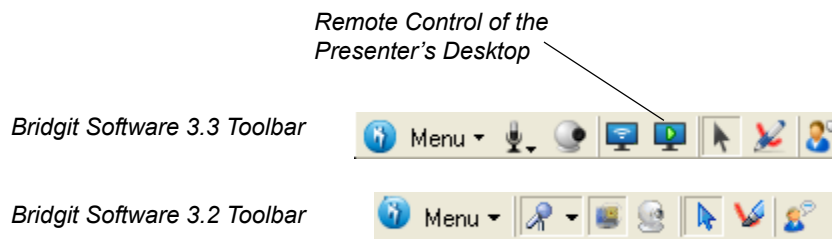

Bridgit conferencing software 3.3 includes changes to the following features:

- icons
- remote control capabilities
- border colors

Details

Icons

The Bridgit software interface has new icons. Bridgit software 3.3 also has a **Remote Control of the Presenter's Desktop** toolbar button and a **Request Remote Control** menu command that earlier versions don't have.

Remote Control Capabilities

A participant can request remote control of the presenter's desktop by clicking **Remote Control of the Presenter's Desktop**  or by selecting **Menu > Request Remote Control**. A balloon message appears on the presenter's desktop when a participant requests a remote control session. The presenter can accept or decline a participant's request. If the presenter accepts the request, the participant can move the pointer, open files and start programs on the presenter's desktop. Only one participant at a time can remotely control the presenter's desktop.

The presenter can pause a remote control session at any time by clicking their mouse. They can also return control to the participant by clicking **Return Control** in the balloon message that appears when they pause the session. The presenter can also end a remote control session by clicking **Remote Control of the Presenter's Desktop**  in the Bridgit software toolbar, and then clicking **Regain Control** in the balloon message that appears.

Border Colors

Some Bridgit software border colors have new meanings in version 3.3:

Border Color	Version 3.2	Version 3.3
Green	You're viewing the presenter's desktop.	You're viewing the presenter's desktop.
Yellow/Orange	You're viewing the presenter's desktop during a remote control session.	The presenter paused the remote control session.
Silver	You're viewing the presenter's shared desktop in full screen mode and the presenter's desktop is smaller than yours.	Not applicable
Blue	You're sharing your desktop.	You're sharing your desktop.
Red	You have remote control of the presenter's desktop or a participant is remotely controlling your desktop.	You have remote control of the presenter's desktop or a participant is remotely controlling your desktop.
