

The Grades on the Senteo™ Clickers Are Different from the Grades in Senteo Teacher

Applies to: Senteo™ interactive response system, Windows® XP, Windows Vista™ (32-bit), and Windows 2000 operating systems, and Mac OS X operating system software

Overview

The grades that appear on the Senteo clicker are different from the grades that appear in Senteo Teacher.

Senteo firmware doesn't support partial marks. The clickers treat all questions as being worth one point, whereas SMART Notebook and Senteo Teacher software allow you to award partial marks. Consequently, the grades that appear on the Senteo clicker can differ from how they appear in SMART Notebook or Senteo Teacher.

If you don't want the grades to appear on the clicker, see the HELP files for instructions on how to turn off the grade feature.

Details

This is a known issue. Always refer to the grades in SMART Notebook and Senteo Teacher.
