

Determining the Serial Number on a *Front Projection* SMART Board™ Interactive Whiteboard

Applies to: *Front Projection* SMART Board™ interactive whiteboard systems including the 500 series, 600i, 600i2, and 680v interactive whiteboard systems

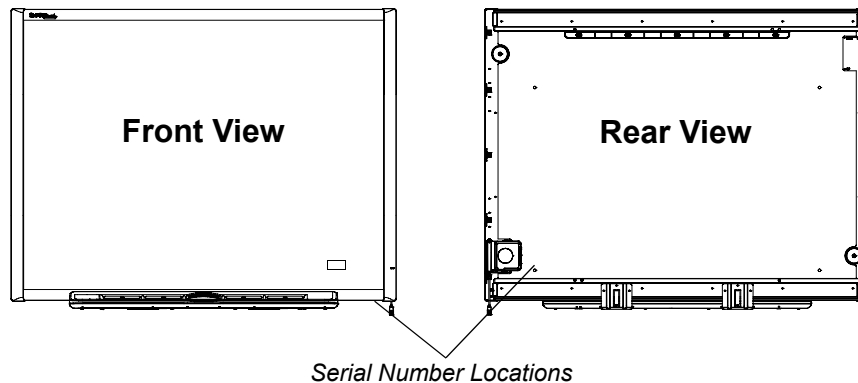

Overview

This document explains how to determine the serial number of a *Front Projection* SMART Board interactive whiteboard.

NOTE: You need this serial number to obtain a product key for SMART Notebook software 10.

Details

You can find the serial number on a *Front Projection* SMART Board interactive whiteboard in two places: on the back of your SMART Board interactive whiteboard, and the bottom, right-hand edge of the interactive whiteboard's frame (the side).

IMPORTANT If you're still unable to locate the serial number, *and* you have a SMART Board 640 interactive whiteboard, you can remove the pen tray to locate your serial number. For instructions on how to remove the pen tray, see [document 1414](#).

IMPORTANT The serial number on your SMART Board interactive whiteboard *always* begins with the letters SB, followed by the interactive whiteboard's model number. For the 500 series, the serial number will begin with the letters SB followed by a model number starting with a 5 instead of a 6:

- SB640-xxxxxx
- SB660-xxxxxx
- SB680-xxxxxx
- SB685-xxxxx
- SB690-xxxxxx
- SB680-R1-xxxxxx
- SB680-R2-xxxxxx.

The serial number can include numbers, letters, and hyphens.

NOTE: For information about locating the serial number of other SMART hardware products:

- See document [84318](#) - *Rear Projection SMART Board* interactive whiteboards
- See document [84317](#) - *In-Wall Rear Projection SMART Board* interactive whiteboards
- See document [84319](#) - *SMART Board for Flat-Panel Displays* interactive whiteboards
- See document [84324](#) - Actalyst™ interactive digital signage
- See document [84325](#) - AirLiner™ wireless slates
- See document [84323](#) - Sympodium™ interactive pen displays
